

Senan Jayasinghe

Data Scientist & AI/ML Engineer

senandulneth1@gmail.com | +94 71 424 2312

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Data Science undergraduate with experience in building AI powered systems and data driven solutions. Passionate about solving real-world problems through intelligent design and continuous learning. Effective in collaborative Agile environments and driven to deliver measurable value. Eager to contribute meaningfully from day one while continuously growing alongside experienced teams.

Technical Skills

Languages: Python, R, Java, TypeScript, C#, C++

Full Stack : Spring Boot, .NET, MERN, Redux TK, FastAPI, RESTAPI, WebSockets

AI & ML: TensorFlow, PyTorch, Scikit-learn, Hugging Face, LangGraph, RAG Pipelines

Data & NLP: NumPy, Pandas, Matplotlib, NLTK, TF-IDF, OpenCV

Database: SQL, MongoDB, PostgreSQL, Oracle DB, ChromaDB, Qdrant

Tools: GitHub, Git, Jupyter Notebook, Docker, Power BI, Tableau, CI/CD, Azure, VS Code, Visual Studio, Postman, SSMS, n8n, Excel

Professional Skills

- Agile teamwork
 - Problem Solving
 - Time management under deadline
 - Analytical Thinking
 - Critical Thinking
 - Strong Communication skills
 - Adaptability and flexibility
 - Research & Knowledge Sharing
-

Education

- BSc (Hons) in Information Technology Specializing in Data Science (UG) | Nov 2023 – 2027
 - Sri Lanka Institute of Information Technology (SLIIT) | CGPA: 3.30 / 4.00
 - G.C.E. Advance Level 2022 (Science Stream)
 - Sivali Central College Ratnapura | Passed With 2 S 's and a C
-

Professional Experience

Project Third eye Trading: Worked with a client via Upwork, primarily handling C# backend development, including real-time communication using SignalR and WebSockets, resulting in a 30% improvement in live data updates, Coordinated with a React.js frontend.

Projects

Arfy AI – Personal Voice Assistant (Python, PyTorch, LangChain, LangGraph, Qdrant, RAG, faster-whisper, PyQt6, OpenGL, FastAPI) - [GitHub](#)

Built an AI-powered voice assistant that understands user commands and performs tasks such as web search, weather updates, app control, and media actions. Integrated Generative AI (LLMs, RAG) and AI agent workflows to make responses more contextual and useful.

PawCare – AI Powered Cat Monitoring System (*In Progress*) (Python, PyTorch, YOLOv8, ResNet18, FastAPI, WebSockets, OpenCV, Next.js, TypeScript) – [GitHub](#)

Developed an end-to-end cat monitoring system using YOLOv8 for real-time detection and ResNet18 for identity classification, along with a Mel spectrogram-based audio model for cat vocalization recognition. Integrated with FastAPI and WebSockets for live data streaming.

Stock Prediction Model (Python, Tensorflow, NumPy, Pandas, yfinance) - [GitHub](#)

Developed an LSTM-based stock forecasting system using historical financial data. Performed data pre processing, feature engineering, and time-series analysis to identify market patterns and predict price movements through a Streamlit dashboard.

Pharmacy Sales Data Warehouse & BI Solution (SQL Server, SSIS, SSAS, Power BI, Excel, ETL) - [GitHub](#)

Designed a pharmacy sales data warehouse to organize sales data for reporting and analysis. Built ETL workflows, cleaned and validated data, created analytical models, and developed Power BI dashboards. Used Excel for data preparation, analysis, and reporting.

HR Analytics & Statistical Analysis (R, Regression, Hypothesis Testing) - [GitHub](#)

Analyzed HR and employee engagement datasets using R to identify behavioral patterns and performance factors. Applied EDA, regression, correlation analysis, and hypothesis testing to generate data-driven insights and reports

CareerPulse AI – Job Tracking & Automation System (Docker, n8n, APIs, LLMs, Supabase) - [GitHub](#)

Developed an AI-powered automation system that collects job listings, filters relevant opportunities, scores them using an LLM, and sends real-time alerts through Telegram and email. Used Dockerized n8n workflows, APIs, and Supabase for automation and data storage

Certifications

- AI & ML SLIIT
 - MongoDB Data Modeling Path
 - Introduction to LangGraph - Python
-

Extra Curriculum

- National Level Chess Player
 - Singer & Instrumentalist
-
